Grow with Invacare Action³ Junior

Invacare's **Action³ Junior** has key adjustable features in its stylish design, to meet the ever changing needs of growing children. The wheelchair can be adjusted in seat width, backrest position and numerous other options to create a specification to suit the child.

An individual fit with extensive size combinations

When choosing a paediatric wheelchair, a key factor is ensuring a perfect and comfortable fit for the child. The **Action³ Junior** comes in an extensive range of size combinations from 205mm to 380mm offering the right fit for any child from toddlers to teenagers.

Customise your chair!

A wide range of options are available on the **Action³ Junior** to meet every child's needs in terms of comfort

and positioning. In addition the chair can be customised with a variety of accessories, frame colours, and spoke guards.

Features and Options

Seat-width adjustment

The seat width of the chassis can be adjusted with an innovative telescopic crossbar providing four fixed seat positions. (Small 205-280mm, Large 305-380mm).

Upholstery adjustment

As the chassis is adjusted, the upholstery on the back and seat can be adjusted with easy to use Velcro flaps.

Table tray

In addition to the standard slide-on table tray, also available is a swing-away tray that can be easily folded away.

Adjustable seat height and balance

For improved manoeuvrability and comfort, the rear wheel can be mounted in 20 different positions.

Features and Options
