The new easy way to push.

- ▶ **Pushing and braking your wheelchair can now be as easy as this.** Uphill or downhill, on steep ramps, sloping drives or on longer journeys, viamobil eco, the electric pushing and braking aid for wheelchairs, helps carers with pushing at the times they need it most.
- ▶ **viamobil eco is also a safe partner when travelling downhill, with the automatic braking function providing a big advantage in safety.** The intelligent spring system ensures a comfortable and quiet ride, automatically compensating for bumps or dips in the road surface, making sure that the wheel always remains in contact with the ground.

These benefits not only relieve the strain on the carer, they enhance the personal freedom of carer and user alike and thereby improve the opportunity for social contact.

viamobil eco: with puncture-proof tyres, battery pack, charger and control unit (all included in the price).

Just simple – the viamobil eco.

Wheelchair pushing can be as easy as this – a fact endorsed by TÜV, an independent organisation which tests quality and reliability. Under the guidance of TÜV, the user friendliness of the viamobil eco was exhaustively tested with the help of users and given the rating ‘Simple to operate’.

NEW: Available with two control options

ErgoDrive.

ErgoDrive means easy and convenient operation. The ergonomic handlebar control gives the attendant easy control in any situation by pressing the handles down to go forward or lifting up to go in reverse.

Thumb control.

The drive lever on the ergonomically shaped control unit is simply depressed slightly using the thumb to move the wheelchair forwards. This means that even longer walks can be completed without fatigue. The drive lever is lifted up to go into reverse.

The advantages of both control options.

- ▶ All functions are controlled using a hand wheel with one hand for optimum ease of use.
- ▶ Intelligent pneumatic spring system that adapts to bumps and dips in the ground.
- ▶ Foot pedal for conveniently lowering and raising the drive wheels, for instance, when manoeuvring indoors without any assistance from viamobil.

► **Technical data**

Load capacity	120 kg (weight of person)	
Speed	Infinitely adjustable 1-5.5 kph	
Range	12 km *	
Climbing capability	10 %	
Weight	Battery pack	6,0 kg
	Drive	10,5 kg
	Control unit	2,0 kg
	Overall	18,5 kg

* depending on load, terrain, ambient temperature to ISO 7176-4

Weight information V14

max. occupant's weight:	120 kg
max. overall weight:	170 kg
(incl. viamobil eco, wheelchair, wheelchair occupant)

Ideal to transport.

In a matter of seconds, viamobil eco dismantles into three handy parts, without tools, and easily fits any car boot or luggage compartment.

Fits your wheelchair.

viamobil eco combines with most standard wheelchairs and, thanks to its well designed coupling system, attaches easily to the wheelchair without the need for tools.
