

Our most popular model due to its compact dimensions, ease of operation and a class leading production capacity for a countertop machine that only requires a standard 13amp power supply. Suitable for restaurants, takeaways, indoor play centres, seasonal kiosks with a limited power supply, outside event catering and self-service buffet restaurants.

MODEL CS4

MODEL FM8

This floor model soft serve freezer serves two flavours of soft ice cream or frozen yogurt, with a twist. Ideal for cafes and restaurants or dedicated yogurt stores wanting more than one flavour.
