*The Trainer with the personal touch*

# RAFFLE FIRST PRIZE OF A GAS TRAINING COURSE WORTH

## £4000.00

### PROCEEDS TO PROSTATE CANCER UK

The PG1 Course is a Gas Training Course for New Entrants to the Gas Industry and people from all walks of life can take the course.

It is a four weeks intense course carried out in our Training Centre in Hoyland, followed by an on-the-job training programme with a Gas Engineer, supplied by MSL, which can be completed part time or full time.

The successful candidate will be competent and capable of obtaining full time sustainable employment within the Gas Industry. The course starts on

**Monday 2nd December 2019.**

Graham Hawkes of ECS Gas Training says “ This is not just a course worth £4000. A typical Gas Engineer can earn anything from £500 to £1000 per week. Take £700 as an average and multiply this by 25 years and the course is worth nearly a million quid ! Far better odds than the lottery ”

**TICKETS AVAILABLE FROM**

**ECS GAS TRAINING LTD , 10 MARKET STREET, HOYLAND, BARNSELY S74 9QR,**
